

## Community connections services to support emotional wellbeing and mental health from 1 April 2017

Surrey Community Connections services are open access services, delivered by the voluntary sector, to support people (aged 16 and over) with mental health needs to stay well in their communities. The services promote social inclusion, community participation, mental well-being and recovery by connecting people to 'mainstream' activities in their community by offering a variety of group activity and one to one support.
